

A Message from Dr. Robert Andrews, Headmaster

Regarding School Re-opening, August 20, 2020

Dear Patriot Family,

FCS is blessed to have many parents who are medical professionals, as part of an advisory team led by Mr. Frank Rivas, who have been meeting regularly to provide expertise and guidance for a safe and informed return to school. In our most recent meeting, we discussed our desire to open our campus for students whose parents would like for their students to return to live classrooms. The deliberations included up to the minute statistics as to the COVID infection rate and hospital admissions related to the pandemic. As of today, the infection rate in Miami-Dade County is trending downward to levels that are conducive to our return to campus, so as of this date FCS will open the campus to students on August 31. However, should the conditions related to the spread of COVID in our community change which would require FCS move to an all remote learning platform, we will not hesitate to protect our faculty and students by closing the campus.

Please pray as we continue to prepare for the school year for wisdom and guidance in every decision that needs to be made.

In His Service,

Robert Andrews, Ph.D.
Headmaster
